THE EXELPRINT PROCESS

We're not your typical printing business. We pride ourselves on offering a simpler and painless ordering process, better quality custom print than the rest and unmatched service.

CUSTOMISE

Whether contacting us by phone, email, web or in person — we get straight to the point to ensure we can meet your needs. Dealing with difficult applications is our speciality and our expert team are skilled at asking the right questions to ensure no stone is left un-turned. Don't forget, you can complete customise your tag the way you want it, as well as samples being sent out for you to check.

ARTWORK

We pride ourselves on high quality work across our entire range, no matter how big or small the job is. Complete customisation is included with your label, such as the size, shape or including your company logo.

SAMPLE

We will not start any production until we have your tick of approval and that every aspect of the tag is signed off.

PAYMENT

You'll receive a tax invoice which can either be paid by credit card or direct bank transfer. As soon as payment is received, your labels will start to be made!

PRODUCTION

Now the action begins! As the manufacturer, we'll produce everything ourselves. Assuming that the artwork is approved, we'll aim at completing your job based on agreed timelines — something that we certainly pride ourselves at consistently meeting.

DELIVERY

Our automated dispatch system allows us to choose the most appropriate shipping method to meet your requirements. Once dispatched, freight details are provided so that you can track your labels anywhere in the world.

CALIBRATION STICKERS

- » Suitable for all surfaces
- » Indoor and outdoor use
- » Range of sizes and colours
- » Custom or off-the shelf options

These Calibration Labels are ideal for all types of surfaces, as well for being used for either outdoor or indoor. Its heavy-duty and durable design will ensure it never falls off and be able to withstand harsh environments.

They're custom made in Australia to ensure you meet the relevant requirements for your industry, whether it be monthly or yearly testing.

You can choose to customise your Calibration Sticker for your particular requirements, from the colour, text fields, size and shape. Alternatively, we have pre-printed options also available.

METALLIC LABELS

- » Professional silver look
- » Gloss levels makes it easier for barcode readers
- » Polar and non-polar surfaces
- » Wide application range

These durable and stylish Metallic Labels create a professional look and feel to the actual product. They can be used for a variety of different applications, all of which can be customised to your particular labeling needs.

They are suited to both indoor and outdoor use as they can withstand harsh environments, as well as featuring a self-adhesive that's suited to both polar and non-polar surfaces.

Metallic labels can be used for items such as white goods, electronic and computer equipment, barcode labels and warning stickers.

LIFTING & RIGGING TAGS

- » Made from premium nylon
- » Quarterly and annual rigging inspections
- » Add a company logo
- » Heat and UV resistance

These specially designed lifting and rigging inspection tags are manufactured using the highest grade nylon and conform to the ISO 9001 Standard. This ensures they're highly durable in all types of environments and provide additional heat and UV resistance.

Featuring a strong clasping feature, these tags are ideal for conducting periodic inspections in lifting, rigging and height safety gear, although they can be used for a wide variety of safety equipment uses. Usefully, they are tamper evident to ensure you're aware of any tampering or attempted removal.

ELECTRICAL TEST TAGS

- » Avoid writing data by hand
- » An easier way keep track of appliances
- » Pre-printed data
- » Free advertising for your business

Customised Test Tags offer an easier and quicker way to test and tag. This is achieved by having your data pre-printed for you on every tag (saving time by avoiding hand-writing each one), while also offering a way to brand your tags with your company logo and colours.

Our Customised Test Tags are manufactured using only the highest quality materials, meaning that they're designed to withstand the harshest environments.

HARNESS INSPECTION TAGS

- » Dual clasp functionality
- » Conforms to ISO 9001 Standard
- » Made from Premium Nylon
- » Tamper-evident and impact resistant

Harness tags help ensure you stay on top of harness inspection schedules by specifically showing the inspection and identification information. They are used primarily for harnesses, lanyards and other fall arrest equipment.

These Harness tags are made from the highest quality nylon, helping to ensure they stand the test of time and can withstand the harshest of environments.

CONTACT AND SERVICE

- » Tamper evident adhesive
- » Full colour digital print
- » Sequentially numbered
- » UV stable that won't fade

We provide an enormous range of customised stickers for all types of business contact details, which includes full branding. We also provide labels for servicing details that covers a variety of industries. There's no minimum order size and they can be supplied either on rolls or sheets.

You'll have complete control when it comes to designing your ideal sticker, including all types of shapes, sizes and durability. Whichever option you choose, all stickers are produced with highest quality materials and use the latest in digital print, so you can be assured your stickers will look highly professional.

ASSET TAGS

- » Create an Asset register
- » Protect/track valuable assets
- » Scannable barcodes or QR codes
- » Add company logo/information

Our Asset Tags are perfect for tracking the movement of stock and equipment through various locations to ensure that all users know who owns the item. They are essential component for providing facilities with an automated asset tracking system, which will in turn enable the safety, security and control over company assets.

These custom Asset Stickers can be altered in every way, so you can choose to have variable data, sequential barcode numbers, alpha- numerics, company logo and much more. We also offer pre-printed barcode labels for people that require just the standard option.

Custom Shapes, Colours & Logos

HOSE TAGS

- » Tamper evident adhesive
- » Full colour digital print
- » Sequentially numbered
- » UV stable that won't fade

These Hose Tags provide a simple and permanent identification of cable bundles and hose assemblies, making them ideal for the hydraulics and pneumatics industry. They provide protection against any oils, grease and abrasions, as well as resistance against extreme heat and cold. Hose tags can be customised to suit your particular requirements.

They have been manufactured using a high grade adhesive to ensure it permanently attaches to the hose, while also protecting the printed information. They can also be manufactured with a clip for extra stability.

INDUSTRIAL LABELS

- » Extra strong self-adhesive
- » Ideal for indoor and outdoor environments
- » Oil, chemical and temperature resistant
- » UV stable and never fades

Our Industrial stickers and labels are ideal for Australia's typical harsh environments, where durability and extra toughness is a necessity. They are constructed using a special type of self-adhesive and 350 micron PVC - making them temperature resistant to extreme heat and cold, as well as having superior tear resistance that will stand the test of time.

These labels can be altered in any way you please - from the size, shape, design, branding and application. As we've been providing specific industrial labelling solutions for over ten years, we're sure to have a label to suit your requirements.

QR CODE LABELS

- » Solution-based options
- » Optional Sequential numbers
- » Any Size and shape
- » Can be printed on any type of label

QR Labels utilises the latest technology by using 2-dimensional barcodes that can be scanned on your Smart Device. It can either be used as a marketing tool for your customers (taking them to a link you've supplied), or for internal use within a company, such as creating an asset register.

There's so many ways to utilise QR codes that it's merely limited by your imagination, but are most commonly used for tracking and locating assets. It's also perfect for engaging staff and customers and giving life to your label or tag.

Custom Shapes, Colours & Logos

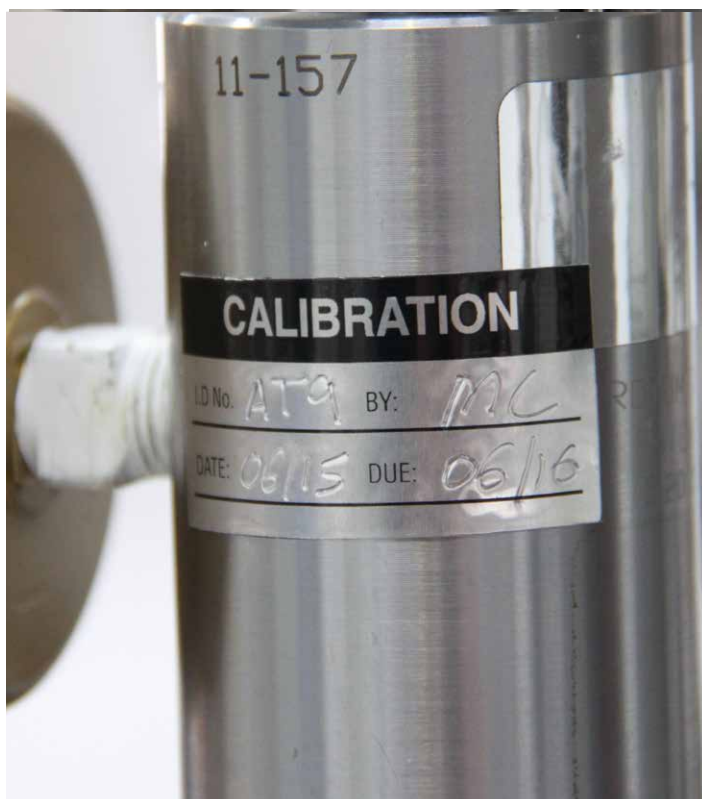

SAFETY STICKERS

- » Electrical Hazard Stickers
- » Machinery Stickers
- » Highlight dangerous traffic areas
- » Highest grade material

EXELPrint has manufactured safety signs for the Occupational Health & Safety industry for over 10 years.

We can help ensure you receive the correct tags and labels to meet your OHS obligations, whether it's for printing 'danger' or 'warning' labels for a wide range of industries.

Our durable materials are ideal for harsh environments or high traffic areas and guarantees your safety message is always visible.

EMBOSSABLE LABELS

- » Soft satin and aluminum finish
- » Embossed with ball-point pen or typewriter
- » Ideal for expiration dates, inspection details
- » Tamper-evident

Our Embossable Labels give you the ability to permanently write information on your label, which is especially useful for inspection schedules or record keeping, as they're highly tamper-evident.

To make indents into the fields, you'll need to use either a ballpoint pen or typewriter. They're also UV resistant so they will never fade or disappear, while its extra strong self-adhesive will ensure it'll never come off. This makes them perfect for any tough or outdoor environments that are exposed to harsh conditions.

SIGN AND SEAL LABELS

- » Seal in your information
- » Ideal for long-term use
- » Increased protection for written information
- » Can be used in any industry

Sign and Seal Labels are a unique concept that allows you to record information on the label and then seal it over with an adhesive laminate. The laminate ensures a permanent seal to protect the information.

Made from the highest quality materials, Sign and Seal Labels can withstand the harshest of environments, especially when the products may be subject to moisture, dust, oils and extreme weather.

MEDICAL LABELS

- » 100% Australian made & owned
- » Consulting suites
- » Hospitals and dental surgeries
- » Nursing homes

We provide a range of labels for the medical industry, used primarily for identification of medical devices and prescribed items, along with meeting various Australian Standards, such as AS/NZS3551.

It's essential that the labeling of medical devices uses the most suitable substrate and adhesive that's ideal for that particular application.

We manufacture labels that are designed for stainless steel and plastics commonly found in the medical industry, as well as label solutions for hoses and cables within hospitals and medical laboratories.

LOCKOUT TAGS

- » Extra durable design
- » Create your own message/warning
- » OHS compliant
- » Economical solutions available

Lockout Tags can be customised to your application so that it features the correct warning and text on the actual tag. You can also include other fields such as name, department, date and any other details.

If you're working in harsh or outdoor environments, the Lockout Tag can be manufactured to be extra durable. The tags can be created with your choice of standard Card or Semi-Rigid Synthetic. For people who are using these tags in large volume, there's also an economical solution.

INSPECTION LABELS

- » Tamper evident adhesive
- » Full colour digital print
- » Sequentially numbered
- » UV stable that won't fade

Inspection Labels are used for keeping track of inspection and certification details, as well as ensuring the item is checked and serviced at the right time. You can have complete control over every facet of your inspection label, meaning it can be printed with any type information and cut to any size or shape.

We regularly design Inspection Labels for a range of difficult applications, as well as providing budget alternatives that might save you time and money.

WATERPROOF LABELS

- » Temperature resistant to extreme heat/cold
- » UV stable and won't fade over time
- » Weatherproof design to suit wet conditions
- » Designed for your application

Our custom made Waterproof Stickers provide unmatched toughness and durability for any type of environment that is heavily exposed to water or chemicals.

They're constructed using the highest grade adhesive and synthetic stock to ensure it can withstand any type of moisture, exposure to liquids and punishing conditions. This also makes them particularly ideal for outdoor environments that must endure the weather.

We have created many types for an enormous range of industries and uses, such as marine, agricultural, mechanical, equipment and vehicles.

OIL RESISTANT LABELS

- » Designed for harsh environments
- » Ideal for factories and workshops
- » Can be used on all types of surfaces
- » Self-laminate to protect written information

If you're after durable and highly visible tags for your factory or workshop, our Oil Resistant Labels are a perfect choice. As many manufacturing environments use oils and lubricants as part of their processes, utilising labels that can withstand these substances is vital.

Our digital print uses highly durable inks on the labels, while an optional self-laminate will protect all of your hand-written information. There's also a range of different permanent adhesives to choose from to suit all types of environments.

PROMOTIONAL & BUSINESS STICKERS

- » Window Stickers
- » Event Labels
- » Product or Business Promotion
- » High Quality UV Stable Print

We manufacture a wide range of custom Promotional Labels, to suit any business type or application. These labels can be completely customised to suit any particular needs.

The design of these labels is completely up to you - choose the size, shape and colour, as well as the thickness, material and adhesives used.

Whichever options you choose, all our stickers and labels are produced with highest quality materials and using the latest in digital print, so you can be assured your stickers will always look highly professional.

HEAVY DUTY LABELS

- » Extra strong PVC and self-adhesive
- » Ideal for indoor and outdoor environments
- » Tear resistant and highly durable
- » UV stable and never fades

The materials we use are constructed using the highest grade of adhesive for extra durability, along with a range of stock suitable for extreme temperatures and rugged environments.

We've also developed our own PVC with permanent acrylic adhesive, which makes the label thick and resistant to tearing whilst sticking to all surfaces.

We guarantee these Heavy Duty labels will stand the test of time and offer unmatched resilience and toughness.

PACKAGING LABELS

- » Product Header Cards
- » Envelope and Box Stickers
- » Food and Bottle Labels
- » Ideal for a wide range of Packaging Materials

We manufacture a whole range of Custom Packaging Labels and Stickers that will bring your products to life.

We use the highest quality printing materials and adhesives, so you can be sure your labels will never peel, tear or fall off.

How you customise your labels and stickers is completely up to you – we use full colour digital printing technology, and we can print in all shapes and sizes. We also have a range of different materials and strengths to choose from.

Scratch & Tear Resistant

TRAFFOLYTE LABELS

- » Unmatched toughness
- » Customised to your particular needs
- » Holes for fixing, mounting, push buttons etc.
- » Ideal for electrical and industrial use

Traffolyte is the original engraving material made from multi-layered plastic which is very hard wearing and suitable for long-term or outdoor use.

There is normally two colours designed to etch one surface and then expose a second colour beneath.

Everything can be customised to your particular requirements, whether it's the size, shape, font, holes for fixing and colours for the font and backing.

Switchboard & Machine Labels

WRISTBANDS

- » Off The Shelf and Custom Options
- » Available in Tyvek, Plastic, Silicone & more
- » Full Colour Digital Printing
- » Fast Turn Around Times

We offer a huge selection of wristbands for a wide variety of different needs. We manufacture custom made options, whereby you can choose exactly how you want your wristband to look,

as well as off-the-shelf options that are ready to buy. Whether it's for an event, party, festival, promotional or medical related, we have a solution that will meet your specific needs.

Our specialty is creating wristband products that are completely unique, as we use full colour digital printing, QR and Barcode technology and multiple design variations. To put it simply, we produce better looking, high quality wristbands with fast turn around times.

Custom Removable Cash Tabs

CUSTOMER REVIEWS

We take great pride in our first class customer service team who are all highly professional, knowledgeable and easy to deal with. Because we place such a high importance on our customer service and support, we have over the years created many long-term customer relationships and are now the preferred supplier to many leading Australasian companies.

EXELPRINT WAS VERY HELPFUL

02/01/2019

Very fast delivery and they have been very helpful. Most impressed compared to our last printing company.

Suburban Pest Management

GREAT CUSTOMER SERVICE

18/03/2019

Great customer service, fast turn around and delivery of a quality product! We purchased customised electrical test tags, asset tags and service labels. When the time comes that we require more, we'll definitely be back!

Emma-Rose, Electrotel Pty Ltd

HIGHLY RECOMMENDED

16/04/2019

Everything about this transaction was seamless and professional. Quick simple ordering process, flexible design options and fantastic finished product. Highly recommended.
